Sophie Reynolds

Producer

In 2016 Sophie established SONA films, which aims to produce British films and TV that intelligently entertain. SONA films has developed a track record of producing films that have gone on to be Vimeo Staff Picks, BAFTA longlisted and win awards (most recently 'VERT' SXSW 2020). SONA Films development slate includes an Anne Fine book adaptation and various projects in development with the BFI and BBC Films.

Sophie co-founded the UK Producer's Roundtable to campaign for access into the film industry and is one of the British Screen Forum's 'future leaders'. In 2020, she was one of 12 producers selected to take part in the BFI's inaugural Insight Producer programme. She is also an established TV commercial producer, working with global brands such as Google, Samsung and Schwarzkopf.
