

# Ben Edmonds

## Corporate Bookings

Benjamin Edmonds is the founder of Blok Knives – Handmade kitchen knives, lovingly crafted from his workshop in Derbyshire, England. Having worked in graphic design for 12 years, Ben stumbled upon knife making around 3 years ago. Teaching himself through trial and error, books and videos, he soon became addicted to his new-found passion. Now, Ben supplies his precision cutting tools to chefs and home cooks all over the globe, turning a hobby into a year's waiting list. The Blok story is one of determination, drive and enthusiasm; wanting to make a product designed to last, in what seems to be an ever-growing 'disposable world'.
